- Nurses on staff ensure that the women and children we serve receive proper medical care and advocacy. They encourage maternal bonding and nurturing through parenting classes and other resources.

- Professional and support staff help mothers become self-sufficient and secure employment and stable housing. The women are also encouraged to reclaim chastity and abstain from sexual activity until marriage.

- **A-B-CEEs** . . . a welcoming educational child care environment where children in transition can blossom and grow.

- **CARING TOUCH** . . . professional therapist on staff promotes emotional healing through individual counseling and support groups dealing with issues such as domestic violence, abuse, mental health, addiction and abandonment.

- **AFTERCARE** . . . stabilizes and strengthens former program residents and families by providing follow-up supportive services.
