

BUILDING

BLOCKS FOR OUR FUTURE

Our Lady's Inn 30th Anniversary
Capital Campaign

30th Anniversary

Thirty years...Just think about what Our Lady's Inn has accomplished in the last thirty years. We have given shelter to over 5,000 women and their children. We have seen thousands of healthy babies born because of the love and support that was provided to their moms. We have grown from one home to two homes, a transitional living house and a resale store. And, last, but certainly not least, we have gone from being run by loyal and dedicated volunteers to having a staff of loyal and dedicated professionals and a wonderful volunteer corps who still plays an active role in the daily life of Our Lady's Inn.

Capital Campaign Goal - \$1,500,000

Your help is needed to raise \$1.5 million dollars! This three year campaign has been created to raise money for the following:

First Goal - \$800,000 - To eliminate the mortgage at the St. Charles location.

Second Goal - \$200,000 - To help with capital improvements at both locations.

Third Goal - \$500,000 - These funds will be added to the Endowment to ensure the future of Our Lady's Inn.

We know that through the generosity of people like you, we can continue to save lives and build a healthy, hopeful tomorrow for even more families.

A Note From Margie*

"For me, Our Lady's Inn was home for several months. My beautiful little girl was born healthy; she weighed almost eight pounds! If it weren't for Our Lady's Inn, this precious little girl would probably not be alive or she would have been born very sick and addicted...

I am a recovering heroin addict and Our Lady's Inn gave me a stable environment where I was able to stay clean and take care of myself during my pregnancy. I learned to eat right and stay focused on my baby, rather than getting high. When my family learned that I was pregnant, they kicked me out, but told me I could move home if I would have an abortion. I had no place to go, so I called Our Lady's Inn and they helped me get into a drug treatment program. When I completed the program, there was a room waiting for me at The Inn. And now, here I am months later, clean and healthy and with an absolutely perfect baby girl.

Our Lady's Inn saves lives everyday. Its doors are open through the financial support of generous people, like you, who believe in its mission. I can't express how grateful I am to hold my beautiful baby in my arms and thank God for His gift of life!"
